

Hydraulic System

Mahindra employs hydraulic systems that are heavy and sturdy to ensure stability and safety. Compare ours to other brands and you can see the difference.

Front Axle

Mahindra insists on using bigger, thicker, stronger axles to achieve maximum stability.

Reinforced Fenders

Our fenders are reinforced and use a thicker gauge of sheet metal for strength and durability.

MAHINDRA CAB SERIES

Superior Performance

Higher lift capacity

Handle larger implements
Get work done a lot faster

Heavy-duty components

Tough and rugged
Keep right on performing day after day

Sturdier chassis

Greater stability
Keeps you safe while handling rigorous work

Heavier chassis

Additional weight provides extra traction

CAB Series

3-YEAR WARRANTY

*3-year engine and power train warranty – see dealer for details. Specifications and design subject to change without notice. ©2004 Mahindra USA, MAH-0604

The CAB Series gets the job done quicker and easier.

Superior performance. It's what Mahindra USA was built on. And now, the CAB Series offers yet another line of heavy-duty Mahindra tractors that are as efficient to your budget as they are on the job.

Mahindra tractors consistently outperform others in their class by being heavier and more durable – yet just as versatile. Their rugged, cast-iron chassis give the tractors extra weight, providing more traction, stability and control.

Our tractors have higher lift capacities. Carry bigger loads. Handle larger implements. And come in a wide range of sizes, so you can find one that's ideal for your workload.

Simply put, a Mahindra tractor does what needs to be done – quickly and efficiently.

Customer satisfaction is high.

Who better to gauge our commitment to product quality than the people who own our tractors? In a recent study, a leading market research firm interviewed Mahindra owners nationwide and asked them to evaluate their level of satisfaction with the performance of their Mahindra tractors.

98%
OF MAHINDRA OWNERS ARE LIKELY TO
RECOMMEND MAHINDRA
AND THEY RECOMMEND IT
TO MORE THAN EIGHT PEOPLE

A dealer network as sturdy and stable as the tractors they sell.

Mahindra dealers are fully qualified and armed with the resources to not only put you on the right tractor, but to continue to meet your needs after your purchase. We support our dealers with the ability to ship parts within 24 hours. We provide them with warranty assistance, technical support, low-rate retail financing and on-site approvals, making it quicker and easier to put you on the tractor of your choice.

10 years of cultivating dreams in the U.S.

Celebrating 10 years in the U.S., Mahindra is committed to providing high-performance, trouble-free tractors to the American industry for years to come.

From army vehicles to farm tractors to major automobile manufacturing, Mahindra's relationship with American industry goes back to World War II – when our parent company, Mahindra & Mahindra, assembled the famous Willys Jeep for American GIs.

After teaming up with International Harvester in 1963 to manufacture tractors, M&M today ranks among the largest tractor companies in the world, with an annual production capacity of 110,000 and sales in over 10 countries.

In 2002, Mahindra USA's Tomball, Texas facility was joined by a second assembly and distribution center in Calhoun, Georgia, 68 miles north of Atlanta – more than doubling our production capacity to meet growing demands for our tractors.

Loader

Whether moving earth, scraping a surface or smoothing a gravel road, Mahindra's loader is a rugged and extremely versatile tool.

Pallet Fork

This solid metal implement is a convenient tool to have on hand. Combined with Mahindra's outstanding lift capacity, the pallet fork will help you move all kinds of loads.

Grill Guard

Protect your nose from those annoying dents and dings that often occur during the course of a hard day's work.

Quick Attach Adapter

This well-designed feature makes swapping out implements a snap, so you can spend less time assembling and more time getting your work done.
